

What to Expect at Apple Tree Grill

We are thrilled to open our doors once again to our Yakima Community. The safety of our guests is our top priority here at Apple Tree Grill. Upon re-opening the grill, you can expect the following measures to take place:

1. Sanitation

Hand sanitizer is available in the green bottles around Apple Tree as well as on every table for your convenience. The tables and all table accessories will be sanitized after every party leaves and other surfaces and door handles will be regularly cleaned.

2. Spacing

We have spaced out all tables to maintain 6 feet between each party. While waiting in the common area near the host stand, reference the tape markers on the ground for 6 feet of spacing.

3. Pens

In an additional effort to maintain cleanliness, we will provide new pens for every table to sign the check and keep for yourselves. Think of it as a nice welcome back gift!

4. Masks

All Apple Tree employees will be wearing masks throughout the building and while serving you. We ask that you also wear a mask at all times except for when you are seated at your table. Thank you!

5. Menus

While we will have single use paper menus available, there will be a QR code on every table that links you straight to the menu online.
